Zohra Trust ERPNext

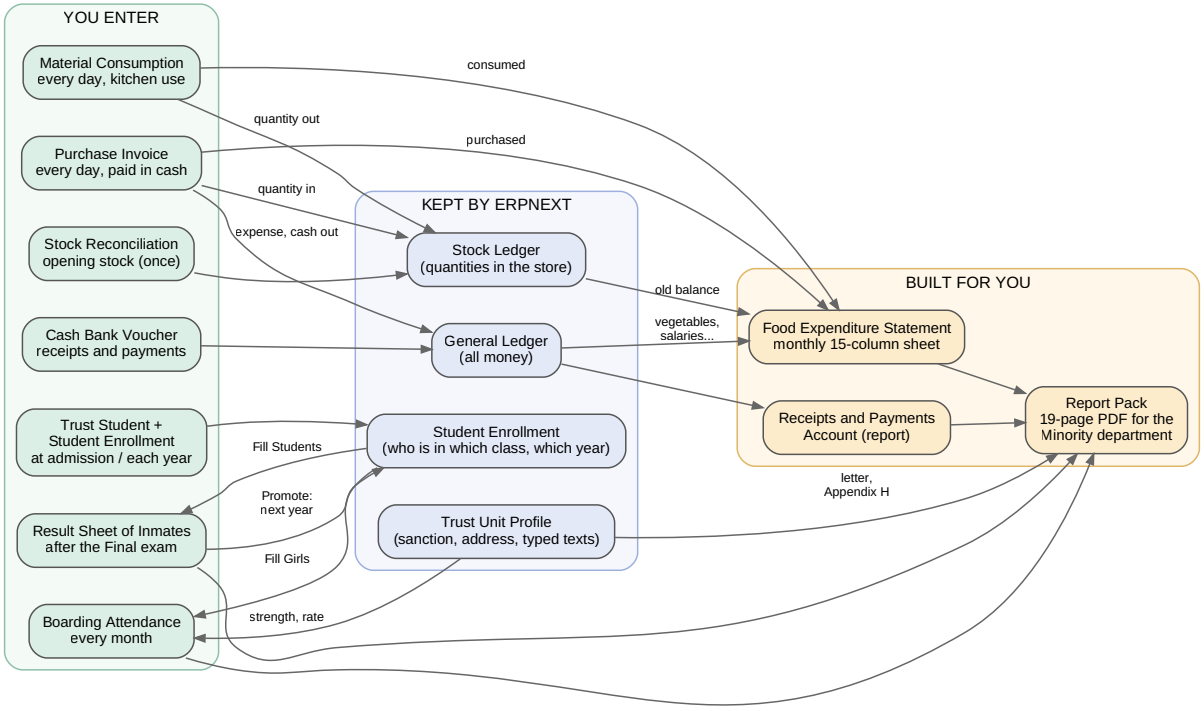

Flowcharts: which document is made, why, and how it flows.

entered by a person | kept by ERPNext | built for you | student record

Read the diagrams first (arrows show where information moves), then the document reference: for each document, why we made it, who enters it and when, what feeds it and what it feeds.

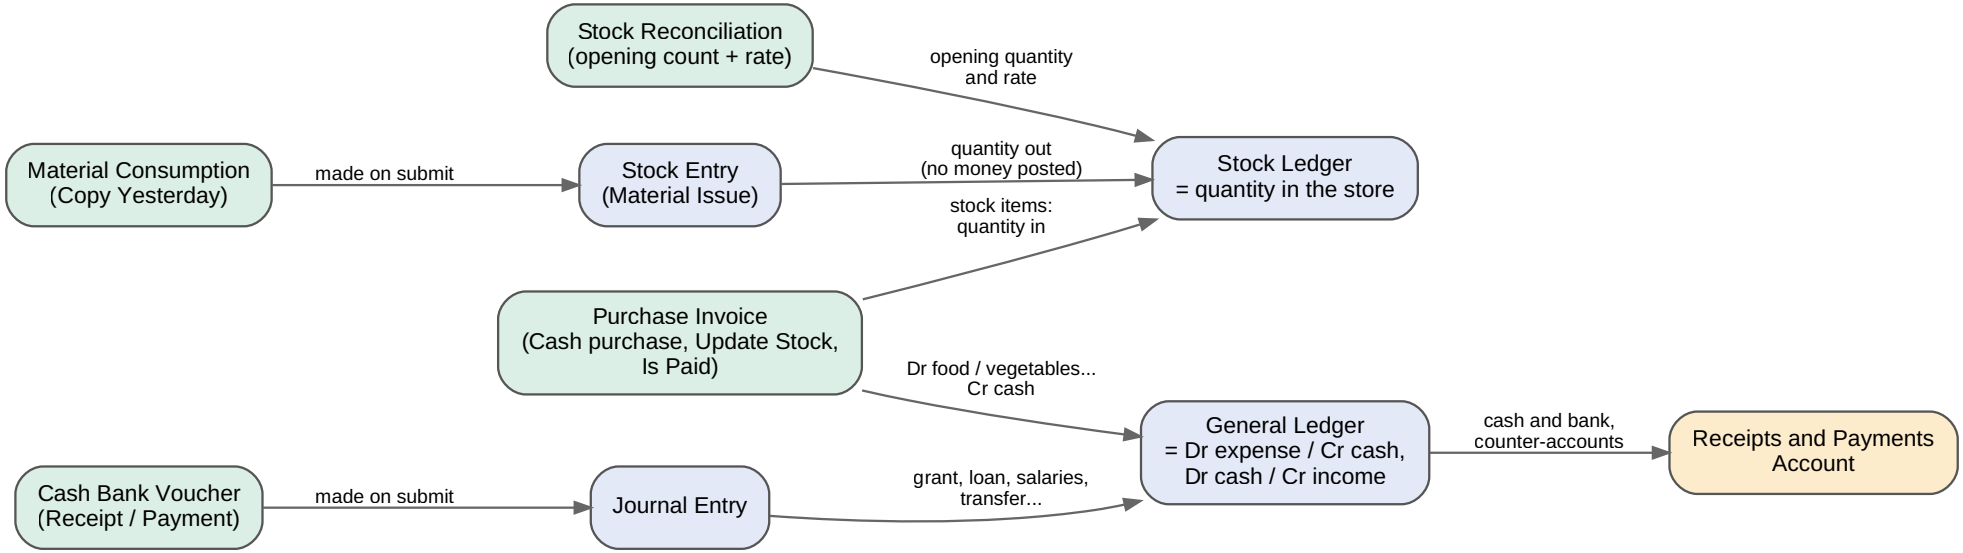

1. The big picture

Three layers. **Green**: what a person enters, as it happens. **Blue**: what ERPNext keeps for you (you never type into these). **Orange**: what is built from the records. Nothing is typed twice.

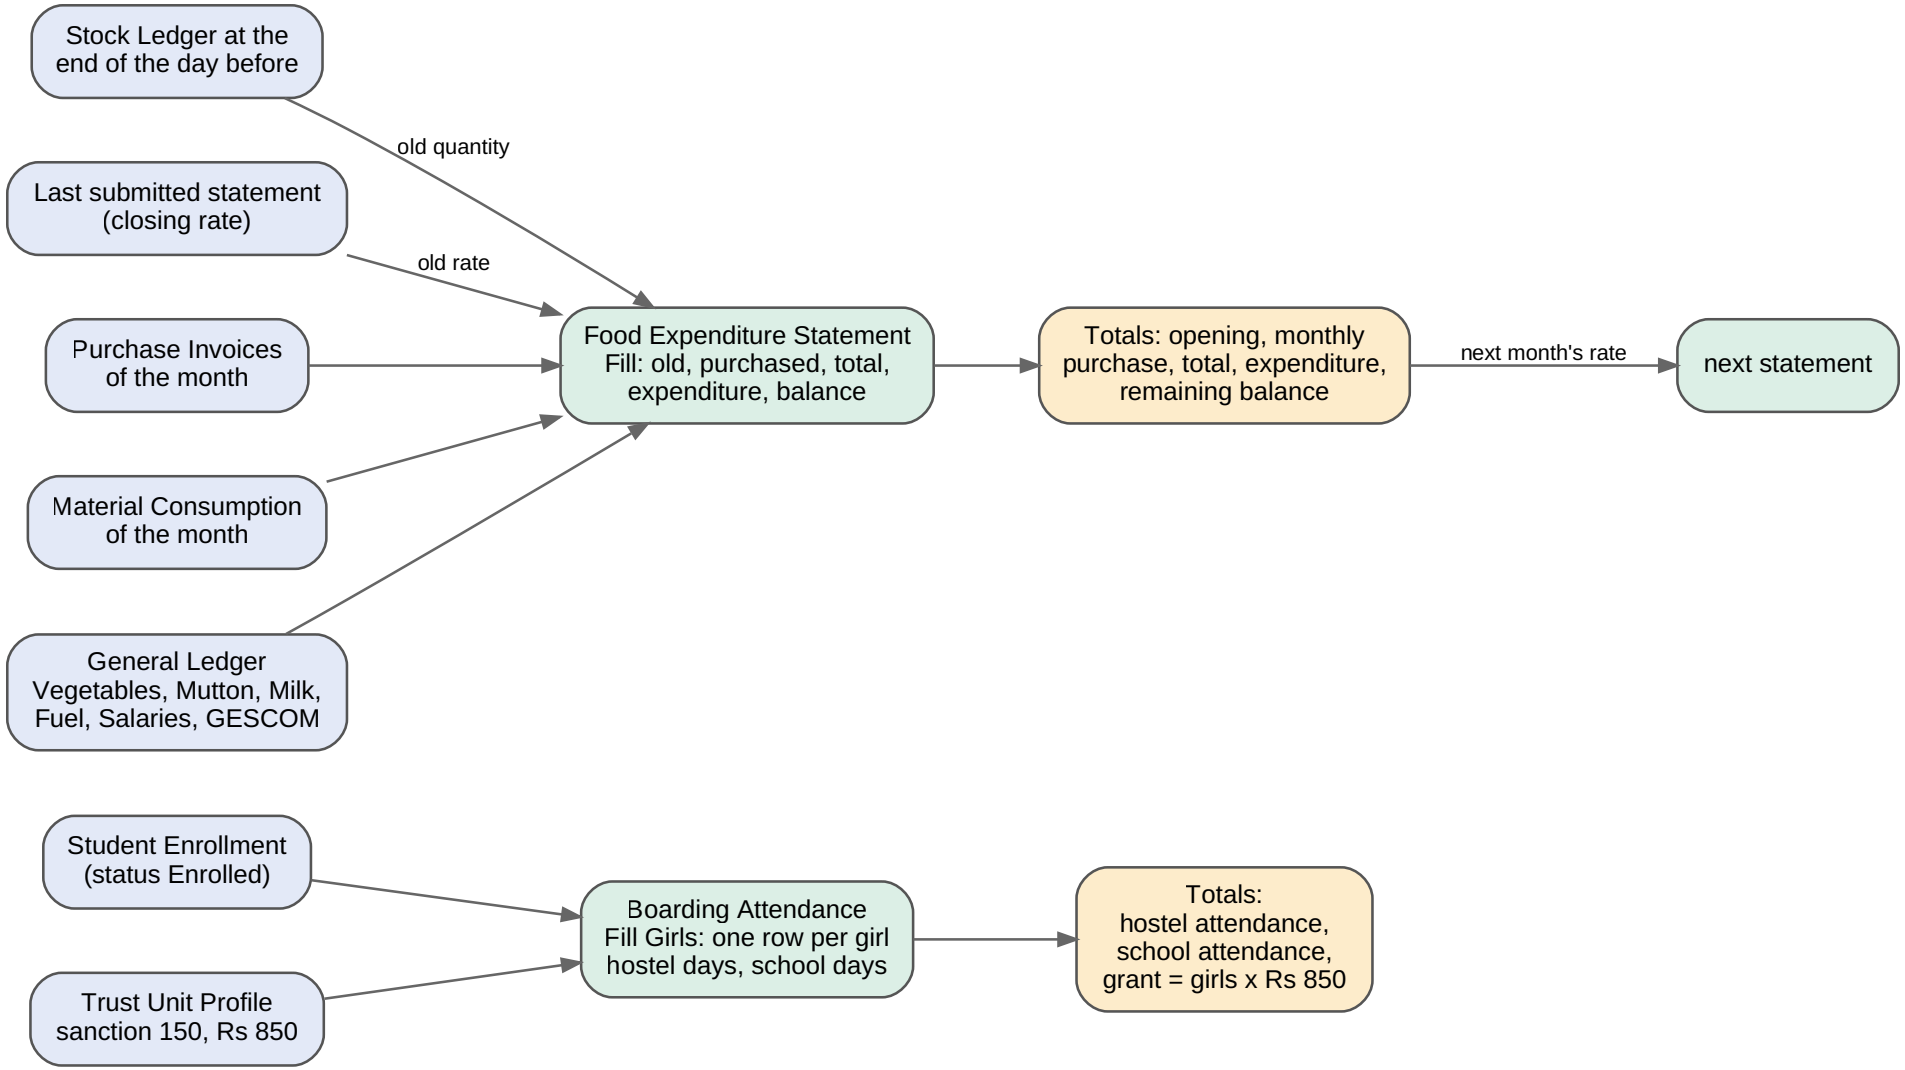

2. Money and stock: what happens when you submit

Each entry makes its effects by itself. You enter one document; ERPNext posts the rest. Purchases are **expenses at purchase**; the store is tracked in **quantities** only.

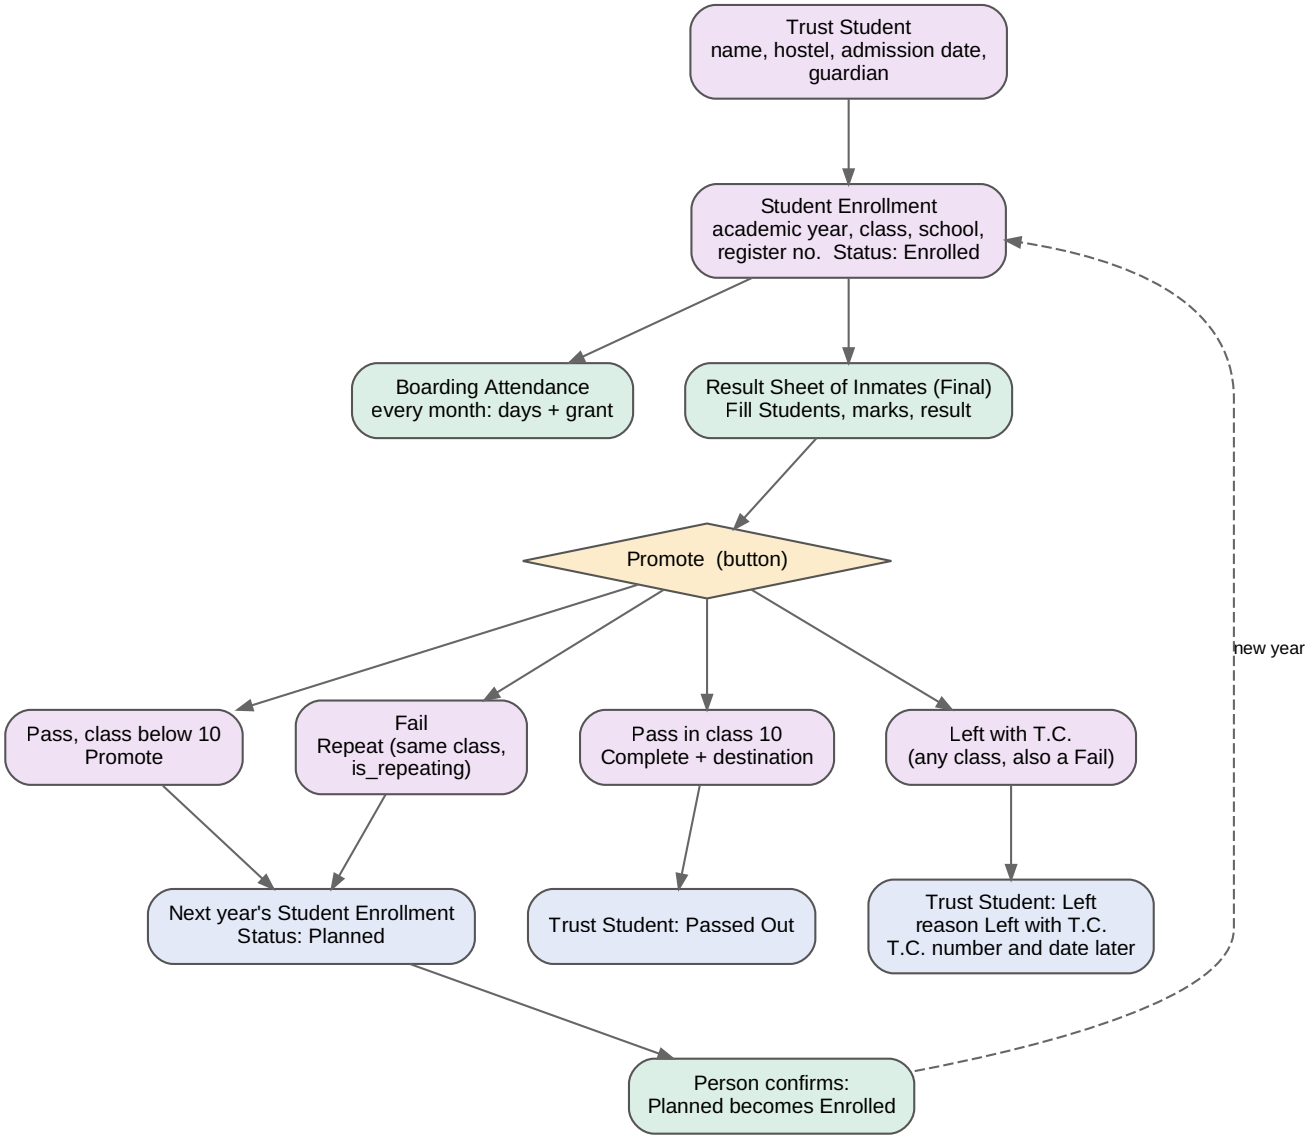

3. The monthly sheets

At month end two sheets are made. The **Food Expenditure Statement** is filled, never typed: old balance is the real stock at the end of the day before, valued at the last statement's closing rate; the rest comes from that month's purchases, kitchen use and spending.

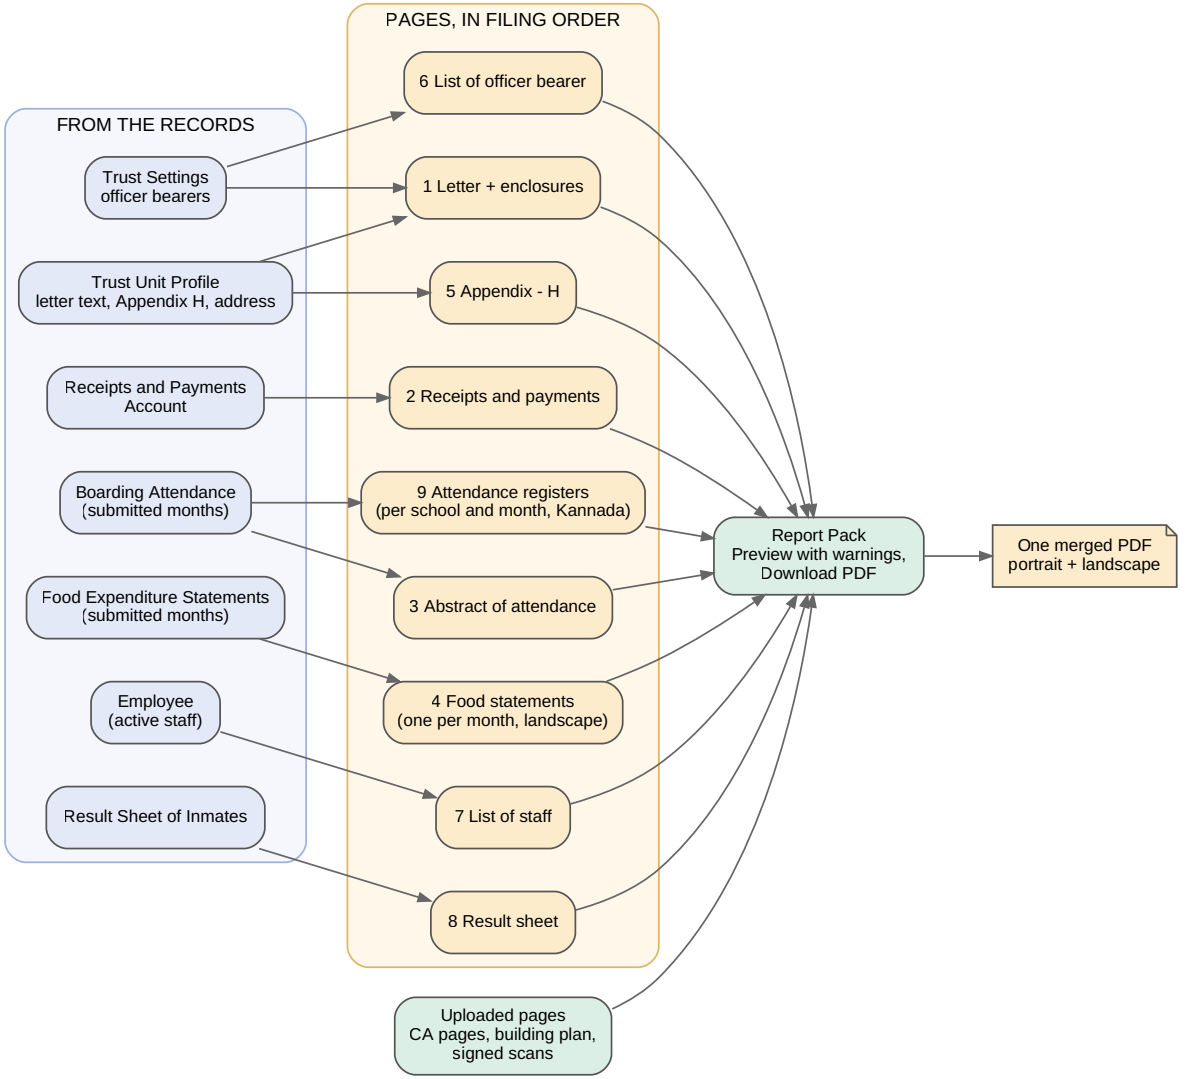

4. A girl's year: admission, results, promotion

The same girl is followed from admission to leaving. Last year's enrollment is never edited; promotion makes **next year's** enrollment as **Planned**, and a person confirms it.

5. The half-yearly Report Pack

The Report Pack builds the PDF for the Minority department from the records, in filing order, and warns about anything missing before you print. Pages that are not generated (CA balance sheet, building plan, signed scans) are attached to the pack and merged in. The Grant Bill is pending Zohra's sample.

6. Document reference: why each document exists

Document	Why we made it	Who, when	Fed by	Feeds
Trust Settings	One place for the trust's name, registration number and the officer bearers, so the letterhead is typed once.	Administrator, once; edit when a bearer changes.	Typed.	Every report page's letterhead; List of officer bearer.
Trust Unit Profile (with Unit Sanction)	What each hostel tracks, its address, the sanction history (strength and grant rate from a date) and the typed texts. A change of strength or rate is a new row, never an edit.	Administrator, once; add a row when the department changes the sanction.	Typed.	Boarding Attendance (strength, rate), Letter, Appendix - H, food statement header.
Trust School, Trust Class, Trust Exam, Trust Academic Year	Lists the system needs: the two schools, classes with their next class and maximum marks (data, not code), the exams, the year. Promotion and result sheets read them.	Administrator, once (classes by seed_classes).	Typed.	Enrollment, Result Sheet, Promote.
Trust Student	The girl: who she is, when she joined and left, her guardian, her T.C. number and date. Class and register number live on the enrollment.	Office, at admission.	Typed.	Student Enrollment; result sheet (guardian's name).
Student Enrollment	One record per girl per academic year: class, school, register number. Last year's record is never edited. Refuses a girl above the sanctioned strength.	Office, at admission and each year; Promote makes next year's.	Trust Student; Promote.	Boarding Attendance, Result Sheet, the roll.
Stock Reconciliation (standard)	The go-live count of the store with a valuation rate for each item, so the first food statement has real opening amounts.	Store, once.	Physical count.	Stock Ledger; Food Expenditure Statement (old balance).
Purchase Invoice (standard)	The daily shopping, paid in cash. Stock items add quantity; vegetables, mutton, milk and fuel are only expenses.	Store or Data Entry, daily.	Typed; items and heads chosen from lists.	Stock Ledger, General Ledger, Food Expenditure Statement, Receipts and Payments.
Material Consumption	What the kitchen used that day. Opens with yesterday's items so a day takes seconds. One per hostel per day.	Store, daily.	Copy Yesterday.	Stock Entry (quantity out), Food Expenditure Statement.
Cash Bank Voucher	Every receipt and payment that is not a shop purchase: grant, loan, bank interest, salaries, transfer to the Trust. Simple for low-literacy users: one form instead of a journal.	Data Entry, as money moves.	Typed.	Journal Entry, General Ledger, Receipts and Payments, food statement (salaries and similar).
Boarding Attendance	Hostel days and school days of every girl for the month, and the grant (girls x rate). The abstract and the Kannada registers come from it.	Data Entry, monthly.	Student Enrollment, Unit Profile (Fill Girls).	Abstract, attendance registers, grant.

Food Expenditure Statement	The monthly 15-column sheet the department requires: old balance, purchased, total, expenditure, balance for each food item and amount-only rows. Built, not typed.	Store, monthly, after the month's entries.	Stock Ledger, Purchase Invoices, Material Consumption, General Ledger, previous statement.	Next month's old rate; Report Pack.
Receipts and Payments Account (report)	The account of money in and out for the period, with opening and closing cash and bank; both sides must equal.	Anyone, any time; for the half-year.	General Ledger.	Report Pack.
Result Sheet of Inmates	Marks and result of every girl after an exam, and (for the Final) what happens to her next: promote, repeat, complete, or leave with a T.C.	Administrator, once a year (and per exam).	Student Enrollment, Trust Class marks.	Promote; Report Pack.
Report Pack	Gathers all pages of the half-yearly report in filing order, shows what is missing, attaches pages that are not generated, and makes one PDF.	Administrator or Principal, every half-year.	All of the above; uploaded files; Employee.	The PDF for the Minority department.
Employee (standard)	The staff list: name, designation, qualification.	Office, when staff change.	Typed.	List of staff page.

7. The pages of the half-yearly report

What each page is for and where its content comes from.

Page	What it shows, and why the department wants it	Built from
Letter	The covering letter to the District Minority Officer, with the seven enclosures listed.	Trust Settings, Unit Profile letter text
Receipts and payments account	Shows where the money came from and went for the period; the department checks the grant is used.	Receipts and Payments report
Abstract statement of attendance	One line per month: sanction strength, hostel attendance, school attendance.	Boarding Attendance
Food expenditure statement	Month by month proof of what food was bought and used (landscape).	Food Expenditure Statements
Appendix - H	The department's application form for the grant (free text typed once).	Unit Profile
List of officer bearer	Who runs the trust.	Trust Settings
List of staff	Who is employed at the hostel.	Employee
Result sheet of inmates	Marks and result of every girl.	Result Sheet of Inmates
School: College attendance register	Per school and month: days the school ran and each girl attended, signed by the school (Kannada heading).	Boarding Attendance
Grant bill	Pending: Zohra has not yet sent the format. It will sum six months of attendance at Rs 850.	Boarding Attendance (later)
