Zohra Trust ERPNext: do it yourself

Do the whole flow once, by hand, in an empty hostel. Every step says how to open the document, what to type, what you should see, where the data went, and which document to open next.

Before you start

1. Open **http://localhost:8000** and log in as the Administrator. (Roles for other users come later.)
2. You will work in the hostel **Practice Hostel** (abbreviation PRH). It is empty: no girls, no stock, only opening cash Rs 50,000 and bank Rs 2,00,000. Whenever a form has a **Company** field, choose **Practice Hostel**. ERPNext may fill in another company first: change it.
3. Dates are written **dd-mm-yyyy** on screen. Academic year is **2026-27**.

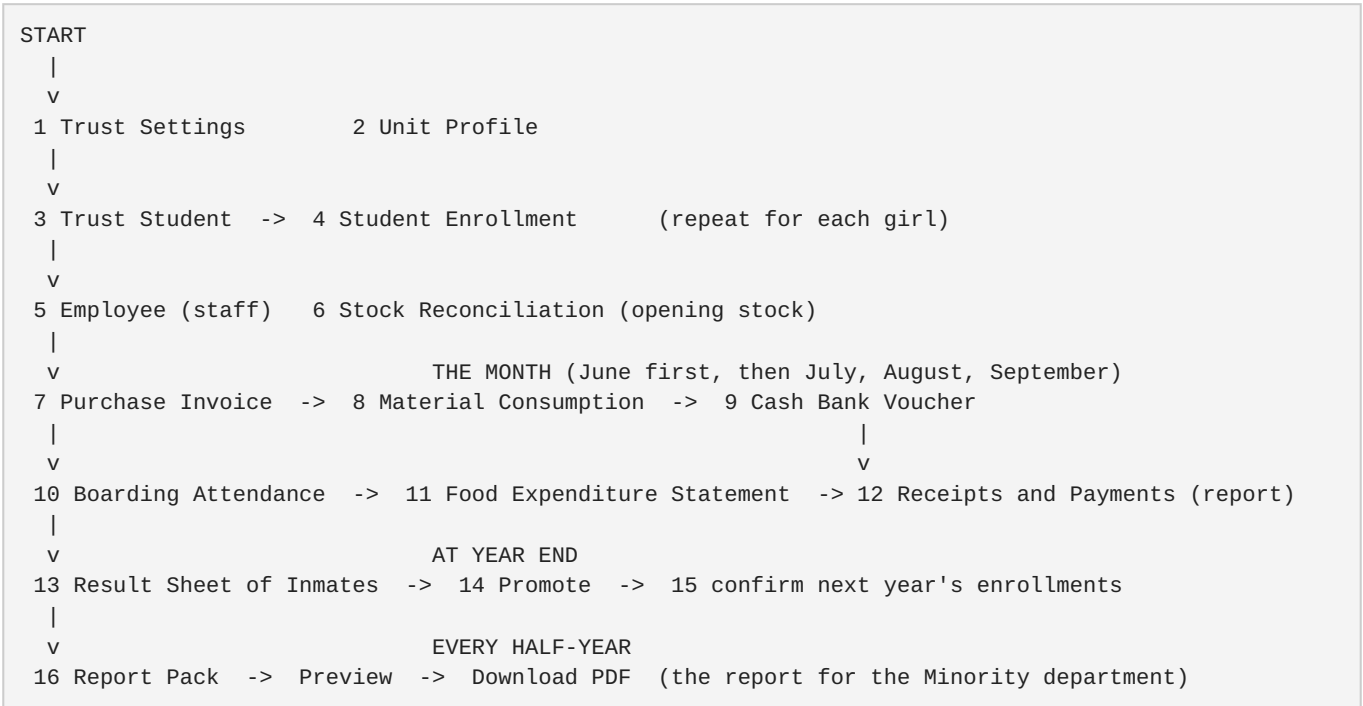

How to open any document (three ways)

Way	How
Search bar	Click the search bar at the top (or press **Ctrl+G**), type the document's name, for example `Trust Student`, and choose it. You see its list. Click the black **Add ...** button at the top right to make a new one.
Address bar	Type `localhost:8000/app/trust-student/new`: the name with dashes instead of spaces, then `/new`.
From another document	Some documents have a link field (for example the Student on an enrollment): click the small arrow in the field to open the linked record.

Buttons and habits

- **Save** (Ctrl+S) keeps a draft. Documents with a coloured **Draft** label can still be changed.
- **Submit** (top right, then **Yes**) makes it final and does the automatic work (stock, accounts). A submitted document shows **Submitted** and has a **Cancel** button.
- A date field: click it and type the date, then press Escape or click elsewhere. A link field (like Company): type a few letters, then click the matching line in the list.
- If something is refused, read the message: it names the field.

The route: from which document to which

Rule of the whole system: you enter each thing **once**. The later documents (Boarding Attendance, Food Statement, Receipts and Payments, Result Sheet, Report Pack) are **filled by buttons** from what you entered before. If a later document looks empty, an earlier step is missing.

If you get stuck

What you see	What it means
Fill Girls / Fill Students shows no rows	No enrollments with status Enrolled for that company and year. Do steps 3 and 4.
The Food Statement shows zero old balance	No opening stock (step 6), or the Stock Reconciliation has no valuation rate.
Fill on the Food Statement shows no purchases	The Purchase Invoice is a draft, is for another company, or has a date outside the month.
The report says 'No submitted ... for July'	That month's Boarding Attendance or Food Statement is still a draft or missing.
Material Consumption: 'already exists'	Only one per hostel per day. Open the existing one.
I made a mistake in a submitted document	Click **Cancel** on it (then **Amend**). Cancelling a Material Consumption puts the food back in stock; cancelling a Cash Bank Voucher removes its Journal Entry.
